List of Egyptian deities
From Wikipedia, the free encyclopedia

Ancient Egyptian deities represent natural and social phenomena, as well as abstract concepts.[1] These gods and goddesses appear in virtually every aspect of ancient Egyptian civilization, and more than 1,500 of them are known by name. Many Egyptian texts mention deities' names without indicating their character or role, while other texts refer to specific deities without even stating their name, so a complete list of them is difficult to assemble.[2]
